PROFESSIONAL SUMMARY

Product designer and founder with over 3 years in digital design. I started in graphic design and branding in 2022 and moved fully into UI/UX and full-stack development in late 2024. I run Ace Engines Technologies, where I designed and built JobSpotta, a trust-first marketplace for local work, solo and full stack, now in public beta in Port Harcourt. I have trained more than 100 students in product design across two cohorts and delivered a ₦1M+ esports tournament on schedule as a project manager. My core strengths are user research, usability testing, design systems, and clear written communication. Open to remote contract work in product design, UI/UX, full-stack development, and AI training and evaluation.

EXPERIENCE

Founder & Lead Product Designer | Ace Engines Technologies

Jun 2025 to Present

- Designed and built JobSpotta over 18 months, a trust-first marketplace connecting Port Harcourt artisans with clients, with layered identity verification, payment protection, live map matching and real-time availability. Built with React, Supabase, Paystack and MapLibre.
- Took the product from closed beta to public beta, running usability tests to refine matching, onboarding and the trust flow.
- Responsible for product strategy, technical architecture, information architecture, and the full design system in Figma.

Product Designer | Technoville Innovations (Contract)

Jan to Aug 2025

- Designed end-to-end user experiences from research and wireframing through high-fidelity Figma prototypes.
- Conducted user research and usability testing to validate design decisions and improve product-market fit.
- Collaborated with engineering teams to ensure pixel-accurate UI implementation.

UI/UX Design Course Facilitator | Technoville Innovations (Contract)

Aug 2025 to Present

- Trained 100+ students across two cohorts (50+ per cohort), each split into an adult track (18+) and a teen track (12+), covering user research, wireframing, prototyping, and design systems.
- Mentored participants through real-world project briefs and portfolio development. Both cohorts completed on schedule.

Project Manager, Esports | Creative Gaming Entertainment (CGE)

Jan 2025 to Present

- Delivered the CGE Invasion Tournament on time and within a ₦1M+ budget, coordinating 20 competing players and cross-functional teams from planning to event day.
- Oversee CRM implementation, stakeholder communications, and delivery timelines for tournament operations.

Project Manager | Crebou (Part-time)

Nov 2024 to May 2025

- Coordinated project timelines, resource allocation, and deliverables across distributed teams.

Team Lead, Villepod Podcast | Technoville Innovations

May to Aug 2025

Intern, Estate Services | Nigeria LNG (NLNG)

Nov 2022 to May 2023

SELECTED PROJECTS

JobSpotta | Founder / Solo Designer-Developer

Public beta

- Trust-first marketplace for local work: four-signal identity verification, payment protection through Paystack, live map matching, price negotiation and referrals. Built solo in 18 months on React, Supabase and PostgreSQL, with 21 tables under row level security and six edge functions. Live in Port Harcourt at [jobspotta.com](#).

E-Access | Client: T-Prime Development (real estate)

In client testing

- Real estate web platform with property listings, search, and a client-facing dashboard. Designed 27 screens across 7 user flows on a two-phase build plan and led the client's logo redesign.

SKILLS

Design: Figma, UI/UX Design, User Research, Usability Testing, Wireframing, Prototyping, Design Systems, Graphic Design & Branding

Development: HTML/CSS, JavaScript, React, Supabase, PostgreSQL, Full-Stack Development, Responsive Web Design

Management: Product Operations, Agile/Scrum, CRM, Stakeholder Communication, Team Leadership

AI Tools: Claude, ChatGPT, Gemini, GitHub Copilot, V0, Midjourney (used to speed up development and design workflows)

EDUCATION, CERTIFICATIONS & AWARDS

Product Design (UI/UX), TS Academy, 2026 (Certificate, Jul 2026) • BTech, Urban & Regional Planning, Rivers State University, 2018 to 2023
Mastering UI/UX Design with Figma (Udemy) • Graphic Design Fundamentals, Canva (1,000+ designs) • Digital Skills for Entrepreneurs (DSE Program)

2nd Place, Best UI/UX Design, Bonny Digital Literacy Initiative • English (fluent), French & Spanish (basic)
